

Spanco Golden Key Solutions has the best CEO

When CEOs speak, they speak to only one magazine – *CEO Middle East*. In the past four years, the publication has become the leading voice of business leaders.

The *CEO Awards* recognize and reward outstanding success, innovation and ethics across Middle Eastern Business. The *CEO Awards* are known as the most significant annual awards of recognition to CEO's and their companies within the Middle East Region.

The event, which took place at The Armani Hotel, Burj Khalifa, Dubai on 20th September, brought together over 240 senior figureheads to recognize the outstanding achievements of industry leaders, entrepreneurs and innovators in the region. The event which was a huge success had over 300 nominations and 15 awards to be given.

The Chief Guest of the event His Highness Sheikh Maktoum Bin Hasher Al Maktoum honoured the event with his presence and gave a boost to it with his motivational speech.

Spanco GKS CEO and Director Dr. Tejinder Singh Bhatia was nominated for the CEO of the year award – BPO and Technology which has almost 300 nominations. With Judges taking almost a month to review the performances of all the entries, it was a tough competition and it was difficult to predict who will emerge out as the winner.

Finally, it was Dr. Tejinder's hard work which paid off and was awarded as the CEO of the Year – BPO and Technology. He started spearheading Spanco when it launched in Qatar & Oman in the year 2006. Showing exemplary growth and performance in the year 2009 in the Middle East region, Spanco GKS has emerged as the fastest growing company in the MENA Region.

This award was an icing on the cake to the Best Call Centre OSP of the year 2010 & Longevity Award which Spanco won for the 3rd time in a row earlier this year in the Middle East Call Centre awards. It was his hard work and dedication which

has brought the company to great heights in the Middle East region which has become one of the Largest Outsourcing Solutions Provider in the MENA region.

Accepting the award, Dr. Tejinder commented, "I am honored that Spanco GKS has received this recognition from ITP (CEO Magazine)," "This award is a testimony to the dedication of our 700+ employees in Qatar and Oman who have worked dedicatedly and helped us grow." "Qatar and Oman markets are opening and competition is increasing. It is time we benchmark ourselves against the best, get away from doing things the way we were, and put certain processes in place"

With a strong track record of strategic leadership, innovation, and a well diversified customer base, Spanco GKS is well placed to continue to excel in the years to come
